Cognition 69 (1999) 361–362

COGNITION

Contents of volume 69

Number 1

AMANDA L. WOODWARD (*University of Chicago*)

Infants selectively encode the goal object of an actor's reach, 1–34

CORNELIA HAMANN (*University of Geneva*) and KIM PLUNKETT (*Oxford University*)

Subjectless sentences in child Danish, 35–72

QI WANG, MICHELLE D. LEICHTMAN and SHELDON H. WHITE (*Harvard University*)

Childhood memory and self-description in young Chinese adults: the impact of growing up an only child, 73–103

Brief articles

ROBERT VAN LIER (*University of Nijmegen*) and JOHAN WAGEMANS (*University of Leuven*)

Effects of physical connectivity on the representational unity of multi-part configurations, B1–B9

JONATHAN ST. B.T. EVANS and JOANNA TWYMAN-MUSGROVE (*University of Plymouth*)

Conditional reasoning with inducements and advice, B11–B16

Number 2

LYNN M. SANTELMANN (*Portland State University*) and PETER W. JUSCZYK (*Johns Hopkins University*)

Sensitivity to discontinuous dependencies in language learners: evidence for limitations in processing space, 105–134

WOO-KYOUNG AHN (*Yale University*)

Why are different features central for natural kinds and artifacts?: the role of causal status in determining feature centrality, 135–178

PAOLO CHERUBINI (*University of Padua*), ALAN GARNHAM, JANE OAK-HILL and ELIZABETH MORLEY (*University of Sussex*)

Can any ostrich fly?: some new data on belief bias in syllogistic reasoning, 179–218

Discussion papers

ARDI ROELOFS (*University of Exeter*), ANTJE S. MEYER and WILLEM J.M. LEVELT (*Max Planck Institute for Psycholinguistics*)

A case for the lemma/lexeme distinction in models of speaking: comment on Caramazza and Miozzo (1997), 219–230

ALFONSO CARAMAZZA and MICHELE MIOZZO (*Harvard University*)

More is not always better: a response to Roelofs, Meyer, and Levelt, 231–241

Number 3

P.G. SCHYNS and A. OLIVA (*University of Glasgow*)

Dr. Angry and Mr. Smile: when categorization flexibly modifies the perception of faces in rapid visual presentations, 243–265

P.R. MUESER, N. COWAN (*University of Missouri*) and K.T. MUESER (*Dartmouth Medical School*)

A generalized signal detection model to predict rational variation in base rate use, 267–312

B.M. SCHMITT (*Maastricht University*) and A.S. MEYER, W.J.M. LEVELT (*Max Planck Institute*)

Lexical access in the production of pronouns, 313–335

Discussion papers

S. NICOLLE and B. CLARK (*Middlesex University*)

Experimental pragmatics and what is said: a response to Gibbs and Moise, 337–354

R.W. GIBBS Jr. (*University of California*)

Speakers' intuitions and pragmatic theory, 355–359

Brief article

N. CHATER and G.D.A. BROWN (*University of Warwick*)

Scale-invariance as a unifying psychological principle, B17–B24

Contents of volume 69, 361–362
